

# Rethinking cloud for a **future-ready** enterprise

Enable hybrid/multi-cloud  
transformations with Velocity-C

# Hybrid/multi-cloud adoption: Accelerating digitalization

The pace of IT infrastructure transformation to a hybrid/multi-cloud ecosystem continues to accelerate. Yet, many organizations lack a well-defined roadmap that is critical for a seamless transition to an agile and flexible infrastructure.

## Key challenges for hybrid/multi-cloud transformations

Lack of transparency in cloud economics

Lack of in-depth visibility into application and infrastructure performance

Keeping pace with innovation

Prolonged time-to-market

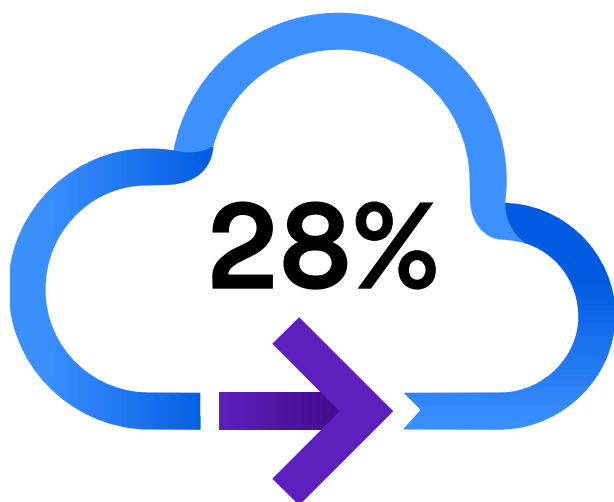

Complex multi-vendor management

Lack of tested and validated frameworks

## Emerging market trend

The global multi-cloud management market is expected to expand at a CAGR of 28% from 2023 to 2030

## Accelerate hybrid/ multi-cloud transformation with VelocTy-C

Built on HCLTech's CloudSMART approach, VelocTy-C is a multi-cloud offering based on certified reference architecture, co-developed with the Cisco engineering team. It employs validated and tested design that is backed by HCL Software's DRYICE framework, integrated with Intel's Granulate Real-Time Continuous Workload Optimization Solution.

VelocTy-C is driven by intelligent automation and a powerful partner ecosystem to address specific business objectives, providing end-to-end delivery of hybrid/multi-cloud services. It allows enterprises to automate their digital infrastructure components and accelerate their transformation journeys with a constant focus on meeting organizational sustainability goals.

# HCLTech's VelocITy workflow

## Delivering business value

VelocITy-C offers unique solutions, assets and accelerators to simplify the enterprise digital transformation journey, such as:

-  End-to-end automation
-  Multi-cloud blueprinting
-  Multi-cloud observability
-  Validated and tested design
-  Intrinsic security
-  Third-party integrations
-  Single vendor support
-  Containerization
-  Continuous workload optimization
-  Proactive problem identification and healing

# Business benefits with VelocTy-C

Lowers deployment timelines up to 15%\*

Compliant with SOC2/ GDPR/HIPAA regulations

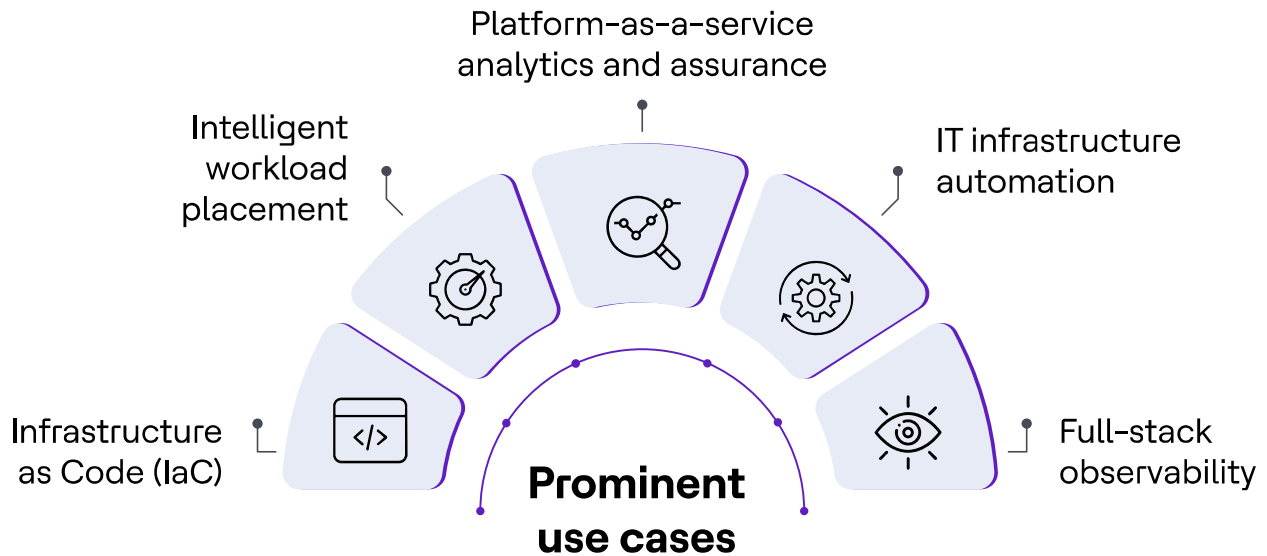

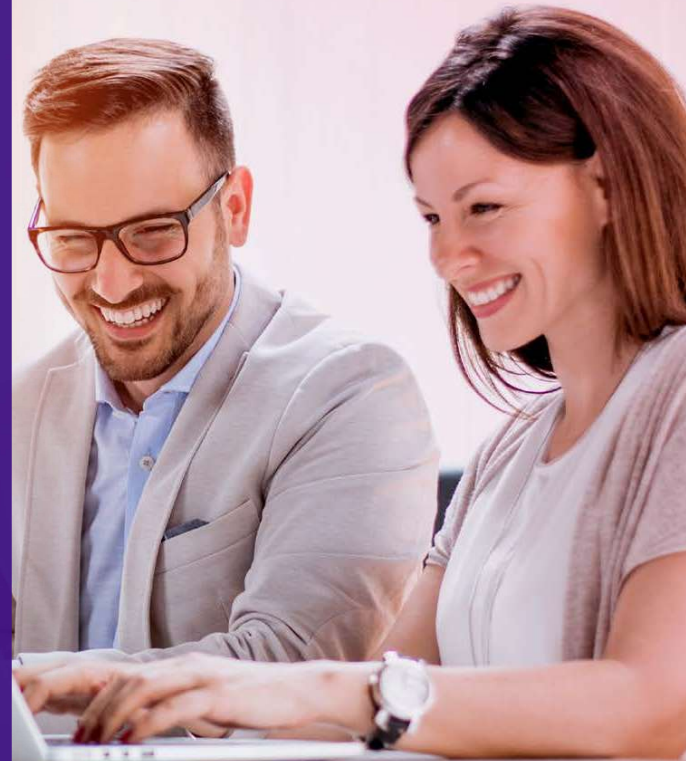

Improves business agility as a result of faster time-to-market

Single vendor contact for support on day-to-day issues

Increases automation by up to 40% and workload performances by upto 60%\*

Reduces infrastructure costs with utility constructs available as pay-per-use

Integrates easily with other IPs, backed by HCL Software's DRYICE framework

## Why HCLTech?

 <p>Range of solutions and offerings covering Intel's and Cisco's broader partnership ecosystem</p>	 <p>HCLTech is a certified Titanium partner, Intel's highest partnership tier</p>	 <p>"Cisco Global Gold Provider" recognition enhances our credibility in the case of Cisco products.</p>	 <p>Strategic 360-degree partnership with Intel and Cisco for 20+ years"</p>
 <p>First global systems integrator (GSI) to develop a software-defined data center (SDDC) stack with Cisco</p>	 <p>40+ validated and highly sought-after use cases with 9+ tested partner integrations</p>	 <p>Multi-cloud framework based on HCLTech's CloudSMART</p>	 <p>Leader in all analyst reports for Cloud (Gartner, IDC, Everest Group, ISG, Avasant)</p>
